This permit will not be valid, and no construction shall commence, until fifteen (15) days from the date of approval. Any interested persons have fifteen (15) days in which to appeal the issuance of the permit [24 V.S.A. 4464 (a)(1)]. If land development has not started within one year from the date of the issuance of a Zoning Permit for a permitted use, the zoning permit shall expire on the anniversary date of its issuance. If a zoning permit has expired prior to the start of land development, then a new zoning permit must be applied for and granted before development may commence. For there to be a "start of land development" a substantial amount of work on the project must have been accomplished.
